

Tubular Column with Framed Door, Black Finish and Heritage Kit.

Tubular Column with Wrap Door, and Galvanised Finish.

Tubular Pole Series

External lighting

Tubular steel pole in rooted or flanged versions, with optional paint finish and/or decorative castings. Can be manufactured to client specification and to suit location and/or windage and weight of load.

Construction: Mild steel construction, galvanised to EN ISO1461. Access door provides easy access to equipment which can be mounted on hardwood baseboard within. Optional spigot sizes, access doors, brackets, etc. available on request.

Decorative Kit: These are 4 aluminium castings added to the pole to provide a heritage decorative appearance (see photo on extreme left).

Installation: Rooted as standard (Flange mounted on request). Base details available from Veelite. Guideline shown on back page. Fuse and internal wiring within pole not supplied by Veelite, and usually supplied by installer.

Finish: Galvanised as standard. RAL Finish on request.

Product Compliance: EN 40.

Veelite
